### Product description:

This ICOOL 110 JUMBO glass door refrigerator combines technology, innovation, and design.

It is available in two colors: white or black and features ventilated refrigeration. It has an internal capacity of 960 liters and the external structure is made of painted steel with an internal structure in painted aluminum.

It has a double frameless door with automatic closing.

The temperature regulation is electronic with a digital thermometer and defrosting is automatic with a compressor stop. It has internal lighting with four vertical LED lights.
