### Product description:

High standard beverage dispensing for a simple and comfortable user experience, ideal for hotels, restaurants, and canteens.

It uses fruit concentrates: the bag-in-box (4 of 4kg or 3 of 7kg) can be easily connected and placed directly in the machine, under the quick-opening lid. High-quality products to maximize service efficiency and reduce costs. Automatic cleaning system for less effort from the serving staff. Maximum energy efficiency: the dispenser cools the beverage and saves 80% of energy compared to continuous cooling systems. Programmable mixing, simplified installation, safety valve on the water inlet. At the end of service, it is possible to maintain cooling by interrupting the dispensing of beverages. Ready for connection to water supply or an appropriate container.

Interchangeable product labels. On request: Control software for statistics and remote maintenance - Wi-Fi.
